Address

2-1081/8, Near R&B
bungalow, Gurazala, Andhra
Pradesh

Education

2016 - 2020

BTECH (ECE) - 9.0 CGPA

RVR & JCCE college of Engineering,
Acharya Nagarjuna University,
Guntur, Andhra Pradesh.

Expertise

- Spark , Pyspark
- Hive ,Sqoop
- Hbase, kafka
- Scala , Java , Python
- Unix ,Shell scripting
- Autosys, Informatica, Teradata
- Cloud computing , ML and AI

Language

English

Telugu, Hindi

Ganesh Bollapalli

Big Data Developer

A highly motivated individual with 2.5 yrs of experience in big data and Hadoop ecosystem which includes Hive, SQL , pySpark, Spark , Sqoop, Unix shell scripting in Cloudera data platform.

Experience

2020 - Present

System Engineer at Tata Consultancy Services

Bank Of America

Major Responsibilities :

- Converted the bteq scripts and the queries which are written in Teradata to hive equivalent.
- Developed the shell scripts based on the requirement and implemented the code as per the business logic.
- Worked on NDM scripts to transfer the files from one server to other server.
- Worked on TPT scripts to load the data using pySpark utility.
- Developed informatica workflows to load the data from different sources to hive tables.
- Worked on Sqoop commands to load the data from Teradata to hive tables.
- Worked on optimization techniques in hive and Spark.
- Conducted Knowledge transfers to team members to maintain coding standards.
- worked on performance tuning and improvements Implemented session reuse in every script.
- Have a good exposure to Hadoop ecosystem tools like kafka, Hbase, Flume, Sqoop .

Certifications

Microsoft Azure Fundamentals (AZ-900)

Microsoft AI Fundamentals (AI-100)
